Take a man as bad as a man can be with unlimited wealth and a heart filled with hatred—take a girl bred in the woods by devout guardians with a character as beautiful as her face—make the girl penniless and force her into the company of the man, and you have some of the startling situations that go to make up the play, "St. Elmo."

When these two fall in love there comes straightway the burning problem—will he drag her down or will she bring him back to real manhood? Stir this problem violently, mix in a

Monte Carlo Girls' Big Burlesque Co. The real burlesque show, the real beauty chorus, namely the "Monte Carlo Girls," is coming to the Elvira theatre Tuesday and Wednesday, Nov. 9 and 10. It is said to be better than ever carrying a company of 25 people (mostly pretty girls), new costumes, the latest song hits, new bright and gingery dancing numbers, and two new burlesques entitled "The Merry

duet, train wreck, scheming women and honorable men and some idea of the development of the plot can be gained. The climax is a sermon that sends the spectator away uplifted.

The author has been wonderfully successful in following the lines of Augusta J. Evans' brilliant novel of the same name. It is a play that makes an appeal to almost every human emotion and is sensational without being unpleasant and draws the good out of the most daring situation.

To miss this play at the Myers theatre.

## A Piano is Not a Wind Instrument

Although one might easily be led to think so after reading the wind-inflated advertising of some dealers and manufacturers. When you look the alleged piano over in detail, take note of the cheap labor which constructed it, the cheap material in it, and then take your pencil and the price current of piano supplies and figure it out. You wonder what kind of nerve tonic the advertiser used before he advertised or catalogued this "thing" as a \$400 piano.

Be on the safe side—buy a Schiller.

## RICH NEW YORKER WILLS \$25,000,000 TO CHARITY

Gift is Largest Ever Made by One Man to Charitable and Religious Institutions.

New York, Nov. 6.—By the death from whooping cough, last Sunday, of John Stewart Kennedy, one of America's little-known rich, religious, educational and charitable institutions of this country, a richer by \$25,000,000, according to his will, filed for probate in this city.

The gift is the largest single contribution of its kind ever made and the beneficiaries include educational and church institutions, north, south, east and west, in the country, and one abroad, 60 in all.

Nearly half of the \$25,000,000 goes to institutions connected with the Presbyterian church, of which Mr. Kennedy had been an active member for many years. Other large beneficiaries include the American Bible society, the Metropolitan Museum of Art, the New York public library, the United Charities of New York, Columbia university and Robert college, Constantinople.

Aside from these gifts, Mr. Kennedy left approximately \$35,000,000 to his wife, his relatives and a great number of friends and employees. The widow's share will be about \$16,000,000. All of the testator's employees received gifts of from \$500 to \$2,000 each.

The charitable, religious and educational institutions which receive the largest bequests are to share the residue of the estate left after definite gifts of approximately \$12,000,000 have been paid out.

### GUNNESS HEIRS COMPROMISE.

They Get \$1,000 Insurance for House Burned on "Murder Farm."

Laporte, Ind., Nov. 6.—A fire insurance company of Connecticut has agreed to pay into the circuit court of this county \$1,000, to be turned over to the heirs of Mrs. John Guinness, who, with her children, was burned to death in the house on her "murder farm," April 28, 1908. The property was insured for \$2,300.

The executor of Mrs. Guinness' estate brought suit, and the insurance company maintained that she set fire to her house and then committed suicide. A compromise was reached. The heirs to profit are the brothers of Mrs. Guinness in Norway and a sister in Chicago.

A Norwegian children's home in Chicago, to which Mrs. Guinness bequeathed her property, refused to accept it. On the Guinness farm twelve or fifteen men were robbed, murdered and buried.

### REPORTED SHORT \$100,000.

Head of Kalamazoo Company Disappears—Receiver is Asked.

Kalamazoo, Mich., Nov. 6.—An alleged shortage amounting to approximately \$100,000 in the accounts of Louis Larson, secretary-treasurer and general manager of the Kalamazoo Interior Finish Company, is believed to be the cause of his sudden disappearance from the city October 20.

Other officers of the company have since Larson's disappearance declared that the books were straight, but it developed that claims against the company for over \$46,000 supposed to have been paid were found in Larson's desk. Petitions in bankruptcy and for a receiver will be filed in the United States district court at Grand Rapids. The assets of the company are \$190,000 and the liabilities \$250,000.

### DREAM TREASON CHARGE BASIS.

Servian Bishop Ordered Tried by King Peter and Cabinet.

Vienna, Nov. 6.—Dispatches received here from Belgrade, Serbia, say that Bishop Nikador of Nish, Serbia, is to be tried for high treason for an unfortunate dream in which he saw a revolution in Belgrade, the deposition of King Peter and the proclaiming as king of the former Crown Prince George.

The bishop told of his vision to some friends and finally it reached the ears of the government. At a session of the cabinet, at which King Peter presided, the dream was considered and construed as a part of a propaganda in favor of Prince George, and it was decided to prosecute the dreamer.

### WRECK ON N. Y. C. & ST. L.

Switch Is Tamped With—No Lives Are Lost.

Cleveland, O., Nov. 6.—The last east-bound passenger train, No. 2, on the New York, Chicago & St. Louis railroad was derailed at Willoughby, 20 miles from here last night. The engineer was badly hurt and many of the passengers sustained minor injuries. No fatalities are reported. The switch had been tampered with. The train caught fire, but the blaze was extinguished by the Willoughby fire department.

### Chain Prisoner on Ship.

New York, Nov. 6.—Paolo Carminin, wanted in Italy on a charge of murder, his father six years ago, has been brought here in chains from Vera Cruz, Mexico. He fought constantly against those taking him home, and was locked in a cell aboard the ship which brought him here. The same vessel will convey him from here to Italy.

### Gives Distress Signal.

Philadelphia, Nov. 6.—Because he gave "the distress signal" in court here Adolph Mockartitz, who was plaintiff in a civil suit, was sent to jail for contempt of court.

### Made a Good Profit.

Lord Greenfield, being asked to buy something by a smart young matron who kept a table at a ladies' fair, said that he wanted what was not for sale, a lock of her hair. Whereupon she promptly cut off the coveted curl and handed it to him, naming the price—\$100. Later the purchaser was showing his trophy to a little circle of friends. "She rather had you there," laughed one benedict. "To my certain knowledge, she only paid three dollars for the entire bunch."

Milwaukee's Satisfactory Growth. Milwaukee is congratulating herself on a growth of 84,931 in population since the federal census of 1900. A recent directory canvass shows, according to the Sentinel, that the city of Janesville here has 270,246 inhabitants. The census of 1900 gave the figures at 235,315.

### In Luxurious Quarters.

Mrs. Clarence Meloy has fitted up beautiful quarters for the Equal Franchise club in the Metropolitan building in New York. Her own private room is done in blue, green and gold. The walls are in a floral design of pink and green, with a black back-ground, which shades into a sky-blue ceiling. The carpet is dark green and the furniture is upholstered in pale blue and decorated with gold. Her desk is an inlaid Sheraton and the fittings are silver. The stationery is adorned with copies of a picture of a young mother with a baby, larger opportunities for motherhood being the sentiment of the organization.

## TILLMAN MET TAFT AT BANQUET BOARD

**SOUTH CAROLINA SENATOR FOR THE FIRST TIME WELCOMES PRESIDENT.**

**WAS A GUEST AT BANQUET**

Chief Executive's Reception at Charleston was the Most Picturesque of His Trip—Stops at Columbus—Reaches Augusta To-Night.

Charleston, S. C., Nov. 6.—President Taft had one of the most picturesque receptions of his trip when he arrived here.

At the head of a procession of automobiles and escorted by an imposing array of militia organizations, he passed through the principal business streets of the city, under arches of electric lights that gave an illumination almost equal to day. The sidewalks held a throng that at places overflowed into the streets, and the president's progress from the Union station to the home of Mayor Rhett, where he spent the night, was marked by cheers.

But Two Set Speeches. President Taft was the guest of honor at a banquet tendered to him by the city of Charleston at the Charleston hotel. It was arranged with special regard to the president's comfort, and the only set speeches were the introduction of the president by Mayor Rhett and the response by President Taft, in which he expressed his gratification at being in Charleston and his regret that he could not make a longer stay.

Senator Tillman Present. Gov. Ansel and Senators Tillman and Smith were in Charleston to assist in the welcome to the president, and were among the guests of honor at the banquet. This is the first presidential reception in which Senator Tillman has participated in a good many years. Until Mr. Taft was inaugurated Mr. Tillman had not even been a caller at the White House for a long time.

The president left here this morning at eight o'clock for Columbia, S. C., and will reach Augusta to-night for a stay of two days.

**SAILORS ARE SCALDED IN TEST.** Four Men Aboard Battleship North Dakota Are Injured.

Portsmouth, N. H., Nov. 6.—As the new battleship North Dakota was completing her four-hour endurance run at a 21-knot gait off the New England coast yesterday, with the battleship speed championship of America almost in her grasp, a steam tube of one of the boilers blew out and scalded her of the lauro and sent her scurrying into this port to land four injured men.

The big ship nevertheless exceeded her contract requirement of 21 knots an hour, making 21.71 in the first two hours, 21.64 in the third hour and 21 knots flat as she hurried on her fourth hour to this port.

All four of the injured men bravely urged the engineer force to disregard their injuries and keep the battleship on her work.

**HENRY O. WEST IS CAPTURED.** Police Believe He's Head of Gang of Bank Swindlers.

Chicago, Nov. 6.—A gang of bank swindlers who, by means of fraudulent checks, bounced banks in many cities out of thousands of dollars, is believed by detectives to have been broken up with the arrest here of Henry O. West.

The swindlers are known to have worked in many of the cities of the middle west during the last year, clearing up at a single coup several thousand dollars, and then disappearing before the checks could be found to be of no value.

West will be taken to Davenport for trial, as it was there that his picture was first identified.

**MILLIONAIRE FIRE FIGHTERS.** Save Ryan Mansion When Garage and Contents Is Damaged.

New York, Nov. 6.—While Clendenin J. Ryan, son of Thomas P. Ryan, the traction magnate, and a band of volunteer fire fighters—many of them millionaires—fought a blaze which started in the garage at young Ryan's country estate near Suffern, N. Y., three valuable automobiles, several thoroughbred horses and several outbuildings were totally destroyed.

The Ryan mansion was saved. The loss on the other buildings and on the automobiles and horses is said to approximate \$100,000. Several of the horses were blue ribbon winners. The estate, which adjoins that of the older Ryan, is one of the handsomest in the colony of magnificent country places near Suffern.

**Oldest Engineer Is Dead.** Camden, N. J., Nov. 6.—Tatum Parsons, the first engineer of the famous locomotive John Bull, died here aged 90 years. Besides having been the first man to handle the throttle of the famous engine, now in the national museum at Washington, Parsons was the oldest locomotive engineer in this country.

**Father Served Under Washington.** Dakota, Ill., Nov. 6.—Mrs. Elmore Immerman, whose father, Nicholas Jekos, served for three years in the revolutionary war under George Washington, died at her home here. She was 85 years old.

It's a mistake to pay \$20 for an advertising space and all it will do is cost you. Anything worth doing is worth doing well. Advertising is an investment, not an expense, if it is properly handled.

## MIDDIES "DISCIPLINE" OFFICER.

**Lieut. Wallace Berthalf Made Target for Nonsense Rebuke.**

Annapolis, Md., Nov. 6.—That striking rebuke to a superior officer known here as "the silence" was administered by 800 midshipmen at dinner to Lieut. Wallace Berthalf of the disciplinary department.

"The silence," a nonsense boycott of an officer, is as old as the word midshipman and the only known mode of resenting an officer's action or rebuking one higher in rank. For the whole of a class period or during the entire time of a meal not a word is spoken or an avoidable sound made.

For about forty-five minutes Lieut. Berthalf endured the rebuke from the youths, who under ordinary circumstances he could punish even for failing to address him as "sir." When "the silence" is administered there is nothing for an officer to do but sit and take it.

It is expected that "the silence" will result in an order calling off all the dances and other social pleasures of the cadets for the rest of the school year.

**ALBANY.** Albany, Nov. 6.—Miss Tilla Stephenson and Miss Louise Whitcomb were Janesville visitors yesterday. Miss Stephenson remaining for a few days' visit with friends and relatives.

Born, to Mr. and Mrs. Olen Kittelson, on Tuesday, Nov. 2, a son.

F. L. Warren of Baker, Mont., is visiting relatives here.

Mrs. Luchina Stephenson returned Sunday from a week's visit with her son Henry and family of Janesville.

Rev. F. L. Roberts of Superior, Wis., was called here the first of the week on account of the serious illness of his grandmother.

**BROOKHEAD.** Brookhead, Nov. 6.—Mr. and Mrs. A. C. Rowe and Mrs. Leo Rowe went to Chicago Friday to spend some days with Dr. Leo Rowe and Miss Tola Rowe.

Mrs. F. L. Crowley of Durand, who was the guest of Mr. and Mrs. S. H. Hiles, returned to her home on Friday. H. A. Smith and family returned to their home in Winnetka Friday morning.

Miss Eliza Sherman was a passenger to Janesville Friday.

Mrs. R. B. Gifford and daughters of Monroe are guests of her parents, Mr. and Mrs. J. L. Roderick.

Mrs. S. S. Laube and F. L. Searles and son Arthur were guests of Prof. and Mrs. Howard Plumb in Shullsburg Friday. Mr. and Mrs. Plumb returned home with them to remain for a day or two.

Mrs. M. Fairman went to Juba Friday where she will remain for a few days with her daughter, Mrs. Frank Copple.

Mr. and Mrs. Anderly are in Madison for a short stay with their son Merle.

who is attending the U. W. Messrs. Dr. Davis and H. O. Patton left Friday for Ladysmith on a hunting trip. They will be joined Sunday by Vergo Fleck and Harold Towne.

Will Worthing and daughter Nina of Calumet, were guests here of C. E. Doolittle and family Friday.

Mr. F. M. Coules of Madison, who was the guest of Mr. and Mrs. G. E. Dixon left for home this morning.

Mr. L. Karney was in Monroe on a business trip Friday.

The second entertainment of the lecture course occurs on Tuesday evening and is by those peerless entertainers, Rogers and Griley.

Today is "tag day" in Brodhead and up to this writing the work is progressing finely. All are responding freely to the call for a slight contribution and it is hoped a goodly sum will be realized.

## RESULTS COUNT

The Greatest Results are Secured by Employing the Latest Modern Methods

Many young people, after deciding to secure a business education, are confronted with the question, "What school shall I attend?" They have been flooded with literature perhaps from a dozen schools all claiming to be the best. So, letters have probably called almost daily, but all have failed to make anything but general statements. The

## Southern Wisconsin Business College

has risen to its present high standard by giving proofs that are open to everyone.

Our class of students who started the study of Charter shorthand only 8 weeks ago, and some 7 weeks ago, are today writing NEW MATTER at from 95 to 105 words a minute. No other system which we have ever used could enable our students to accomplish such work in such a short time.

Students studying our Sadler-Rowe Budget System of Bookkeeping and Accounting have secured equal results.

Place yourself under our instruction and if you will do your part, the results will be certain.

Our standards are the highest in Southern Wisconsin.

A corset improperly made or incorrectly fitted throws the strain of service in the wrong place and not only distorts the corset but the figure as well, producing injury and discomfort.

## J.M. BOSTWICK & SONS.

Half of women's "nerves" are corset ills, caused by the discomfort and annoyance of ill-fitting corsets. Science and service combined are the first thing to be looked for in any corset.

## BON TON-ROYAL WORCESTER-ADJUSTO

A Trio That Fulfills Every Style Requirement, Embodying Comfort and Durability

Careful corseting is necessary for the present mode of dress. Current fashions convey the impression of unbroken lines. The Bon Ton and Royal Worcester, properly fitted, only slightly define the waist line and scientifically reduce the hips and abdomen, so that the whole figure is given the appearance of NATURAL SLIMNESS, a quality hard to find in corsets of other makes. The designing of these models is a new art. The producing of the extreme length that shall be durable and at the same time comfortable, can only be done by a designer of qualified ability.

Bon Tons are fashion's favorite. They lend irresistible charm and grace to every figure. One cannot successfully attain the slender, sylph-like figure of prevailing styles until

you are scientifically corseted in one of the new model Bon Tons. In these you are assured of the permanency of this shape due to superior quality of material and boning.

With the Royal Worcester, corset troubles are unknown. Each model is fashioned to fit a specific type of figure—to mold and shape this particular type of its own ideal lines. Royal Worcester corsets are masterfully designed, skillfully built, and when correctly fitted give great beauty to the figure. If you are stout or inclined that way and wish to conceal the excess flesh as fashion decrees, you must wear an ADJUSTO. It is the best form-reducing corset made. Easily adjusted, as the form reduces. They are made of double strength and superior quality boning, making them practically indestructible.

DOPE DOCTOR  
GIVES HIS IDEAS

WRITES ON PROPOSED RULE BY  
COMMISSION FOR JANES-  
VILLE.

## VIEWS EXPRESSED ON PLAN

Believes Plan Should Be Shaken Up  
Well Before Being Tried Out  
In This City.

A "dope doctor" of the third ward  
is not so certain that rule by com-  
mission is what Janesville wants and  
consequently he writes to the Gazette  
in the following strain:

Shake the Bottle!

"This little bit of precaution is often  
placed on certain dope dealers who  
to have sediment that requires filtra-  
tion before taking. Now this will ap-  
ply to this new dream of city govern-  
ment. Before we take any of this  
"new discovery" what shall we name  
it? "Whitehead's balsam"? We surely  
ought to shake it up and find out  
what effect it will have on our  
municipal affairs. Change is gladly  
hated by the people but it does not  
always mean reformation. Our pres-  
ent system of government by repre-  
sentation has always been considered  
the safest form of government.

If three men are to control our city  
why not have a commission form for  
our county? Suppose we would have  
a commission at Madison to make  
our laws instead of our present as-  
sembly and senate? Stop a minute  
before signing that petition, "shake  
the bottle" and think it over. There  
is too much and more to this prob-  
lem. You have only heard one side  
and no one has had the courage to en-  
ter any protest.

These flowery epistles we have had  
the pleasure of reading have all been  
written by people who were being fat-  
tened at the public crib—men drawing  
large salaries and highly satisfied with  
their jobs. What would you expect  
from them? You have all read patent  
medicine testimonials and this new  
"cure all" seems to have been writ-  
ten by people who have been cured  
by this new discovery. Those who  
have perished or have received no  
benefit are unheard—the taxpayers.  
The most serious objection to this  
new "cure all" is the six year term  
limit. When we have a city council  
elected for the six year period that  
are unsatisfactory, what redress will  
the taxpayers have? Under our pres-  
ent system if your alderman does not  
fill the bill in two years you can oust  
him out and replace him. You will  
say we will only elect such men as  
will meet every requirement. But I  
say you can nominate your pets but  
you can't elect them. Votes count at  
election time and the man who gets  
the most votes gets the position. You  
tell me your ideal man and I will  
nominate men who can knock them  
out.

You have all heard the story of the  
man who was taking a vote of a Pull-  
man train when Pat told him to vote  
for the gravel train and he would have  
a chance to revise his "carikulations."  
"Quality" bill has its aristocracy  
and culture, but Monterey has its  
votes when that election comes. The  
great danger lies in electing that  
six-year term. We have five aldermen  
and it is safe to say that twenty votes  
for each alderman is all that can be  
counted in a hard-fought battle. Our last elec-  
tion showed about 2,250 votes, so you  
can see about what you will have to  
fight with which you try to elect  
your ideals. You can't win!

When you have three men in abso-  
lute control you have no chance for  
your protests. They can tell you to  
get out and stay out and you will  
have to. Our present system has its  
faults. If the city at large would elect  
aldermen, two to reside in each ward,  
I believe the city would come nearer  
the mark than any other method.

Give the bottle a good shake and  
think over that last idea of electing  
by a general vote two from each ward.  
CAUTION.

Don't get the habit! You have seen  
the confirmed habitué of the dope  
fiend. Now if you once get this six-  
year treatment inside your anatomy  
you are a goner. The law very wisely  
tells how you can install this new  
treatment but there are no provisions  
made to get out of the hospital, once  
there.

"The Gazette has kindly offered its  
columns to a discussion of this matter  
and the writer trusts this article will  
be taken in the right spirit, simply  
showing one of the dangers of this  
change."  
(Signed)  
"THE DOPE DOCTOR."

SENSATIONAL SCORE  
IN FOOTBALL GAME

Monroe High School Beat Lake Mills  
Yesterday at Monroe, 103 to 0—  
Other Monroe News.

(Special to the Gazette.)  
Monroe, Wis., Nov. 6.—The Monroe  
high school football team defeated  
the Lake Mills team by a score of  
103 to 0, at the fair grounds yesterday  
afternoon. The game was a repetition  
of last Saturday's game, when  
Monroe played Wauwatosa, with the  
exception of the size of the score,  
which was 85 to 0 in Monroe's favor.  
The forward pass was worked to ad-  
vantage. Andrew Trickle and one of the  
Lake Mills players were hurt by run-  
ning into the wire at the west end of  
the grounds, but stood in the game.  
The Inveitible Bank Protection  
company of this city have just com-  
pleted the installation of its protec-  
tion system in the First National bank

in operation, and has been fully tested  
in public demonstrations that have  
been given. The officers of that in-  
stitution are greatly pleased over the  
success of the venture, and speak  
very highly of the Inveitible com-  
pany.

left for a wedding trip after the cere-  
mony, to Milwaukee, and have now  
arrived in this city, which they will  
make their home. Mr. Sacker is  
employed at the Stauffer barbershop.

The Rut block, on the southwest  
corner of the square, is undergoing  
extensive repairs. The rooms on the  
second floor are to be made into of-  
fice rooms and modern flats. A com-  
plete steam-heating system is to be  
installed, and the steam-diffusers will be  
connected up to the radiators. There  
will be one of the best equipped pieces of  
business property in the city.

BUYERS ARE RIDING  
THROUGH DISTRICT

Casing Weather Brings Out the Men  
Watching the Weed in  
Sheds.

According to the Edgerton Reporter,  
since the season of casing weather  
early in the week, buyers have been  
circulating a little in the grow-  
ing districts again, but as yet we  
have heard of no organized movement to  
increase the holdings of the larger  
dealers. A few sales, however, have  
been made but they are generally at  
prices shaded from those prevailing  
earlier in the season. The warm  
weather needed to complete the cur-  
ing of the late harvested tobacco has  
prevailed largely during the week.

In old leaf the market is gradually  
recovering some of its lost prestige.  
Exporters have been looking over the  
state quite thoroughly of late and tak-  
ing what goods meets their needs in  
quality and price of any year's  
growth.

A 600-cuse lot of fillers from the  
Edgerton packing has been disposed of  
to an exporter. E. M. Hubbard has  
also sold a 100-cuse packing of '08 for  
the account of an eastern manufacturer.

A 100-cuse lot of '08 is being  
exported and by a local dealer, who  
completes some of the transactions of  
the week. The sale of a few lots of  
old leaf from first hands has also  
been made. John R. Johnson sold 48  
cases each of '07 and '08 tobacco.

Sampling of the '08 crop is still on-  
going forward with satisfactory results.  
The shipments out of storage reach  
675 cases from this market to all  
points for the week past.

The first real good tobacco "damp"  
since the crop was secured in the  
sheds came during the week with  
warm rains that brought the hanging  
leaf into fine case and permitted the  
gathering of samples which would in  
a measure show what might be ex-  
pected of the cured crop. There is  
certainly no disappointment concern-  
ing expectations of a thin leaf, for it  
is by all odds the thinnest tobacco  
yet seen, and possibly the lightest, and  
may be of a purely native type. The  
colorings so far, however, are not quite  
as good as desired, but after coming  
in and out of case a few times this de-  
fect will be improved on. The warm  
days following the ending spell are  
proving a great help to the late har-  
vested portion of the crop that yet  
stands in need of considerable weather-  
ing of this nature to carry it through.  
Up to this date there is a good deal  
of green tobacco hanging in the  
sheds that a hard freeze would oc-  
casion damage. Already in some of  
the loosely constructed sheds the  
work of earlier frosts can be seen and  
the probabilities for a larger crop of  
fat stems seems imminent unless fa-  
vored with mild weather conditions  
until now.

by local applications, as they cannot reach

tubes. When this tube is inflamed you have a  
rumbling sound or imperfect hearing, and  
when it is entirely closed, deafness is the  
result, and unless the inflammation can be  
taken out and this tube restored to its  
normal condition, hearing will be ab-

an inflamed condition of the mucous sur-

VALUATION OF RAILROAD PROP-  
ERTIES IN STATE LARGE.

## BIG LINES ARE AFFECTED

Over Ten Million in Advance of Last  
Year's Figures—North-Western  
Heads List.

Madison, Wis., Nov. 6.—The State  
Tax Commission today announced the  
preliminary assessment of the prop-  
erty of the railroads operating in Wis-  
consin, basing the valuation over  
ten millions above what it was a year  
ago. The preliminary assessment is  
subject to review and the railroads are  
given opportunity to be heard there-  
on, but the change usually is not sub-  
stantial. Last year the railroad prop-  
erty was valued at \$74,818,000, and  
this year the total is placed at \$85,  
103,000. The Chicago & North-west-  
ern and the Chicago, Milwaukee & St.  
Paul roads are assessed at \$31,000,000  
and \$28,000,000 respectively.

**Wisconsin Tax Commission.**

The following is the preliminary  
valuation of the property of railway  
companies in the state as made by  
the tax commission and entered upon  
the assessment roll pursuant to chap-  
ter 315, laws of 1903, and the laws  
amendatory thereof, and as con-  
firmed by the assessment for the year 1910,  
subject to review and correction after  
hearing in the manner provided by law:

OTTERS TO BE SHOT  
AS IN PAST YEARS

Men Who Drafted Came Law Blun-  
dered in Using English Says  
Attorney General.

According to a ruling made by At-  
torney General F. L. Gilbert on Fri-  
day, it is lawful to kill otter in Wis-  
consin except between March 1 and  
Sept. 15. The intent of the men who  
drafted the law was evidently to pro-  
hibit the killing of otter at any time  
during the year, but they apparently  
blundered in their use of the English  
language. The attorney general also  
ruled that sheriffs, deputy sheriffs and  
coroners have in their respective  
jurisdictions concurrent authority with  
deputy game wardens.

ture of the services to which the mem-

GOVERNMENT SENDS  
OFFICIAL TO BANK

Treasury Department Will Wind Up  
Affairs of Mineral Point Bank  
at Once.

According to a dispatch from Wash-  
ington, Judge P. P. O'Hara, chief of  
the division of insolvent banks of the  
treasury department, will leave Wash-  
ington on Monday to visit Examiner  
Scheldel in closing up the affairs of  
the First National bank of Mineral  
Point. He will pass on the legality of  
claims and endeavor to facilitate an  
early settlement of the bank's af-  
fairs.

While officials of the treasury de-  
partment refuse to discuss the results of  
their investigations of Mineral  
Point, it is known that they doubt if  
depositors in the failed bank will re-  
ceive anything like substantial reha-  
bilitation. It is possible there may be  
litigation over the question as to  
whether the money placed in the  
special fund by the directors in the  
endeavor to save the bank just before  
it closed is available for the settle-  
ment of claims of depositors.

Under the law, stockholders will  
have three months in which to pay  
the assessment of 100 per cent which  
has been ordered by the controller of  
the currency. If they fail to meet this  
assessment, the United States district  
attorney will be directed to take such  
measures as may be necessary to en-  
force collection. There are forty-three  
stockholders who are liable for this  
assessment.

Several Wisconsin law firms desired  
to represent the government's re-  
ceiver in winding up the bank's af-  
fairs. Controller Murray has decided  
to retain for this work Goodrich, Vin-  
cent & Bradley of Chicago. This firm  
has appeared for government in bank  
failures and the Mineral Point failure  
was of such magnitude that treasury  
officials felt it was the safest plan to  
retain attorneys of wide experience in  
this branch of the law.

JAIL DOORS CLOSED  
ON ELIZABETH MOHR

Woman Who Served Term in Rock  
County Jail Now in Iowa Wait-  
ing Trial for "Fleeing"

According to advices received from  
Freepoint, Mrs. Elizabeth Mohr of Ros-  
coe, sometimes termed "Daisy Chad-  
wick," was turned over to Sheriff Ed.  
Clark of West Union, Ia., at Dubuque,  
yesterday. The Iowa sheriff accom-  
panied Sheriff Clark and his prisoner  
West Union, arrived in Freepoint  
at once notified Deputy Sheriff Stewart  
that he had come for his prisoner. The  
Stephenson county official accom-  
panied Sheriff Clark and his prisoner  
to Dubuque where he formally turned  
the prisoner over to the Iowa sheriff.  
No light on the extradition papers  
was made. Adam Mohr, husband of  
the woman, accompanied the party  
to the depot, but did not wait until  
the train pulled out. Mrs. Mohr has  
nearly recovered from the operation  
and was able to walk from the car-  
riage to the station. Court convenes  
at West Union Nov. 8.

Mrs. Mohr is charged with obtain-  
ing money under false pretenses.  
The sums she obtained from "Mrs.  
Elizabeth Pieper of West Union, Ia.,  
was \$200.

It now has been learned that Mrs.  
Mohr attempted to secure \$50 from  
a local minister, and the only reason  
she failed was that the minister took  
time to think the matter over and re-  
considered his partial promise to let  
the woman have the money. She still  
insists that she has money concealed  
at her home, or that if it is not there  
someone has taken it. Sheriff Clark  
and others who have come in contact  
with her are absolutely deaf to any-  
thing the woman says for the reason  
that they have caught her in a num-  
ber of contradictory stories.

District Attorney Fishers will prob-  
ably be sent for to appear as a wit-  
ness against the woman and the Iowa  
officials claim they have such an "open  
and shut" case that they hope for a  
prison sentence.

**Proposals for County Deposits.**  
Proposals for County deposits for  
one year from January 1st, 1910, will  
be received at my office at the Court  
House in the City of Janesville, Wis.,  
not later than November 8th, 1909.

Proposals shall state the rate of in-  
terest the bidder will pay on daily bal-  
ance, that such interest will be com-  
puted and credited to the County at  
the end of each month, and that such  
deposits and accrued interest will be  
subject to draw and payable at all  
times on demand.

Board reserves the right to reject  
any and all bids.

**A Vital Question.**  
Little Engene, aged three, is the  
baby of the family. One night, after  
having had his supper and being put

supper for me when you were little?"  
—Appreciated.

**Early Mastery of Languages.**  
The mastery of many languages,  
and the ability to read and write at al-  
most incredibly early ages is not a  
modern evolution. In the sixteenth  
century history tells us of one Charles  
Bonet, known as the "man child of  
Manchester," of whom it was said in  
the literal words of the old English:  
"At 3 years of age he dith speak  
Latino, Greek and Hebrew, though  
never taught these languages."

NIGHT CLERK FLOYD HOPKINS  
RESIGNS POSITION AT MYERS

Goes to Milwaukee Wednesday and  
Will Eventually Engage in Hotel  
Business on His Own Account.

Floyd Hopkins, who has held the  
night desk at the Hotel Myers for the  
past four years, has resigned his posi-  
tion and expects to depart for Mil-  
waukee on Wednesday next. It is his  
intention to engage in the hotel busi-  
ness on his own account after enjoy-  
ing a well-earned vacation. Mr. Hop-  
kins' Janesville friends are legion and  
while his departure from this city will  
be regretted, all will join in wishing  
him success in his new venture.

State Ownership Not a Success.

★ FORTY YEARS AGO ★

Janesville Daily Gazette, November 6, 1869.—Attempted Theft.—Last evening a girl attempted to steal a pair of garters from Smith's store but was caught in the act. Merchants will have to be on the lookout as there is a good deal of this shop lifting going on.

State Christian Convention.—We learn that the State Christian Convention will meet in this city the last week of this month. It will doubtless be a very large meeting as it comprises all the evangelist denominations of the State. The last convention was held in Fond du Lac.

Jettings.—A slate roof will adorn the new opera house in a few days. Not less than thirty dwelling houses have been put up in the First Ward, in this city, this past season. An apple tree on the ground of Cyrus Swift in this county, has borne

two crops of perfect apples this season.

Mr. J. M. Riker of this city has the champion head of rock county. It weighs seventeen pounds and measures twenty-five inches around.

At the Schuyler house last evening there was a large gathering of juveniles to celebrate the anniversary of the birthday of the proprietor's little son. It was an event brim full of enjoyment to the participants.

ROOSEVELT—NAUGHTY! NAUGHTY!

Natural Gas for Train Lighting. An innovation in railroad train lighting has been adopted by the Western Maryland railroad, which taps the West Virginia gas fields. Two of its best trains between Cumberland and Baltimore are being equipped with storage tanks for natural gas. If the experiment proves a success the road plans to use only natural gas in all its trains.

The Cosmological Question. The business of life allows no spare time any more. One cannot get rich nowadays in office hours, nor become great, nor keep telegraphically informed, nor do his share of talking and listening. Everybody but the plumber and paper hanger works overtime. How the earth keeps up a necessary amount of whirling in the old 24-hour limit is more than we can understand. But she can't keep up the pace much longer. She must have an extra hour. And how to snatch it from the tail-end of eternity is the burning cosmological question.—Dallas Lore Sharp, in The Atlantic.

Teach "Baby Minding." Instructions in "baby minding" are given to the students of the London garden schools. Babies are borrowed for the purpose.

Friends' Judgment Faulty. Don't imagine because your friends predict great things for you that they will settle the matter. Their affection for you and interest in you may overvalue your powers, and the further fact that they are not specialists in the line for which they declare you so splendidly adapted makes their judgment not only of doubtful value, but in most cases radically wrong.

La Grippe Weakness. "After a spell of La Grippe I was so weak and exhausted I could hardly stand. I began taking Dr. Miles' Nervine and was soon better in every way."

Dr. Miles' Nervine should be taken to restore nervous energy, and overcome this weakening influence which is the most serious effect of La Grippe.

The first bottle will benefit; if not, your druggist will return your money.

**SCHOOL SHOES**

"WEAR LIKE IRON"

They wear best where the wear is hardest. Made of selected leather specially tanned to resist exactly the kind of wear a healthy boy or girl will give them.

Two layers of leather are saved in at the tip instead of one, to prevent the toes kicking out. The soles are of extreme toughness.

Mayer Special Merit School Shoes are made to fit a child's foot in a comfortable, natural way that will prevent foot trouble in later years, yet they are stylish and good looking. Only the genuine have the Mayer Trade Mark stamped on the sole.

Write to the nearest dealer who does not handle Mayer Special Merit School Shoes, we will send you, free, post-paid, a handsome picture, like the one of George Washington.

We also make Honor Roll Shoes for men, Ladies' Lady Shoes, Martha Washington Comfort Shoes, Verma Cushion Shoes and Work Shoes.

**You Are Helped to Wealth**

and independence when you buy land

**In Sunny Southern Alberta**

The Canadian Pacific Railroad helps you to be absolutely successful in making a home in the Bow River Valley. Your success is their success. The crops that you raise and are paid the best market prices for, are shipped to the large grain centers over this road. Increased traffic is all they want—you get the big profits from the crops.

You do not need to live on your land the first year. This company will put in your first crops for you.

Pay for your land out of your crops—except for a small first payment.

Hundreds of newcomers are paying for farms in one or two years through the enormous yields of Wheat, Oats, Barley, Flax and Potatoes, Onions, Sugar Beets, Timothy, and in Dairying and Stock Raising.

This is beyond question the greatest fertile land opportunity in America today.

Write to me today or call in.
